

**BATCH WILL NOT RUN TONIGHT (6/26/96)**

Due to problems with last night's batch run (6/25/96), warrants from this run are being held and not mailed. In addition, we will not run batch tonight (6/26/96). We will work with interfacing agencies tomorrow (6/27/96) regarding interface files transmitted to MAIN FACS today (6/26/96).

There will be no daily RMDS reports for your review from today's (Wednesday 6/26/96) transactions.

We will update you on the additional consequences to your agency as soon as the problem is fixed.
